*Requests to be placed on the Work Session agenda are  
due at **5 p.m. on Thursday** before the Work Session*

**March 23, 2021 Work Session Agenda Items**

February 4, 2021

Honorable Seth Crawford  
Crook County Judge

Honorable Jerry Brummer  
Crook County Commissioner

Honorable Brian Barney  
Crook County Commissioner

Gentleman:

In regards to reserved funds from 2020, we would like to propose a new project to be funded through Title III, County Projects, Section 302 (1) "To carry out activities under the Firewise Communities program to provide to homeowners in fire-sensitive ecosystems education on, and assistance with implementing, techniques in home siting, home construction, and home landscaping that can increase the protection of people and property from wildfires.

The Crooked River Cooperative Weed Management Area (CRWMA) and Crook County Weed Control (CCWC) have, jointly, initiated a fire prevention/noxious vegetation control program in 2013 funded by Title III. This program provides for the education of property owners as to the potential detriment associated with noxious vegetation, the control of noxious vegetation, and to promote the establishment of native, less combustible grasses and forbs on private lands adjacent to Federal lands. Of mutual benefit to Crook County and the Bureau of Land Management is the destruction of noxious vegetation which improves the quality of private lands and protects Forest lands in fire-sensitive areas.

This project is designed to control as much as 40 acres of spotted knapweed in an area of 350 acres bordered by County road 214 (Juniper Canyon), Cimarron Hills sub division, County road 334 (Upper Davis), and a private road to the west. This area is best characterized by sage, annual grasses and noxious vegetation and is surrounded by residential dwellings as well as light business. Removing invasive, combustible, vegetation of this scale will help to foster a good relationship with the private property owners involved as it has in the past with other projects in similar situations. What the CRWMA and CCWC propose to do is to conduct a treatment program beginning in late spring of 2021 and continue that program through 2024. Controlling weeds and educating land owners on private lands protects Federal lands from new invasions and reduces the threat of fire. This program also provides for a more comprehensive control of noxious vegetation in Crook County and gives our agencies the latitude to tackle an infestation which is rapidly expanding.

To fund this project for four years we wish to request a sum of \$20,000.00/year for a total of \$80,000.00. CCWC and the CRWMA would each expend a total of \$10,000.00/year.

Sincerely,

Kev Alexanian Crook County Weedmaster  
Debbie Wood CRWMA Director

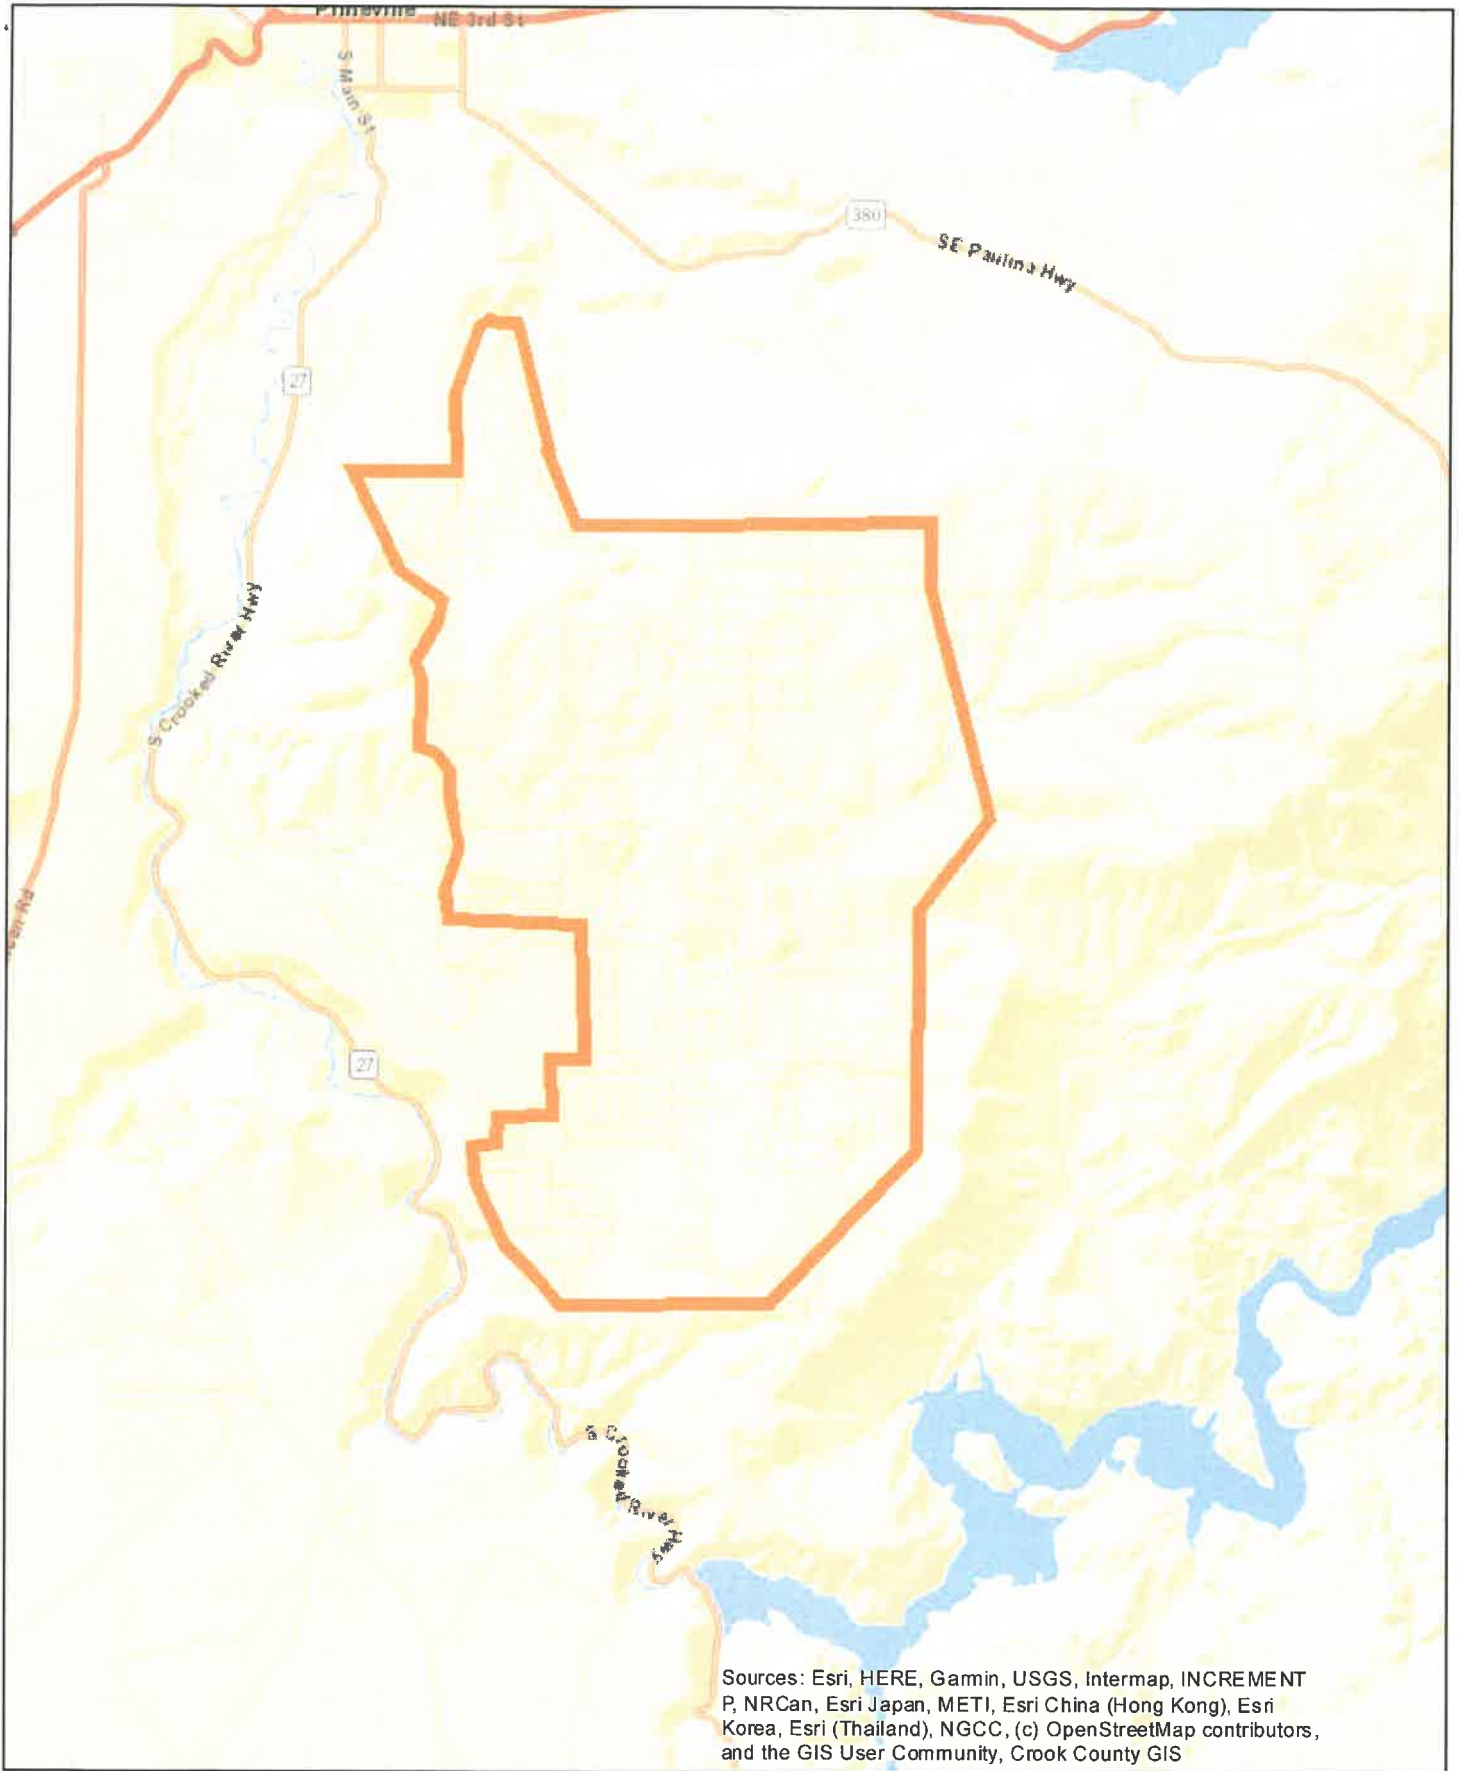

## **Proposed Juniper Canyon/Upper Davis Area Title III Project**

2021-2024

*This Proposal Coincides with the Crook County, Oregon Strategic Plan;*

- Goal #4 Demonstrate wise use and stewardship of our natural resources
  - Objective 4.1b: Develop partnerships with diverse agencies
    - Support efforts to address invasive species that impact agriculture
    - Support maintaining the county's rural character and natural resources
  - Objective 4.1c: Work in collaboration with other public agencies to share planning and management
    - Consultation on noxious weed programs
    - Address environmental issues that have an adverse effect on citizen's quality of life.
  - Objective 4.4 Maintain and Promote wildfire fuel reduction techniques.

# Juniper Canyon/ Upper Davis Title III Project

March 18, 2021

TO: Crook County Court

FROM: Ann Beier, Director   
 Crook County Community Development

RE: Request to Purchase New Vehicle for County Building Inspector

The Community Development Department has a fleet of fourteen vehicles ranging from a 2005 Chevy Colorado to a 2020 Ford Ranger (Attachment A). We requested approval from County Court to purchase a new vehicle in January 2021 and we ordered a fleet vehicle from Robberson Ford (the lowest bid). We anticipate delivery of this vehicle sometime in May.

Three vehicles are currently out of service. One requires a new transmission (a 2015 Escape) that is too expensive to repair. We will ask the Landfill to put it up for auction. Two of the vehicles have over 100,000 miles and have issues that will require repairs. We will use them as reserve vehicles. Due to the loss of these vehicles and the potential to hire one or two additional inspectors, we are in need of additional vehicles.

We requested bids from Robberson, TS & S Ford and Wright Ford (see attached). Roberson has a vehicle that meets our specifications on the lot that is only \$190.18 more than ordering a fleet vehicle. Both quotes from Robberson were lower than prices offered by the other dealers.

We have included funds in our 2021-2022 budget to cover new vehicles. The fleet vehicle is likely to be delivered after July 1, 2021. We have funds in the 2020-2021 budget to cover the vehicle on the lot but will need to work with finance to move funds to the capital budget. The Department recommends accepting the \$28,115.51 bid for the Ford Ranger currently on Robberson's lot and accepting the bid for the fleet vehicle (\$27,925.13) to be ordered from Robberson.

## Dealer Notes

Check out this 2021!

A durable pickup truck seating as many as 5 occupants with ease! A turbocharger is also included as an economical means of increasing performance. Ford infused the interior with top shelf amenities, such as: variably intermittent wipers, a trip computer, and more. It features four-wheel drive capabilities, a durable automatic transmission, and a 2.3 liter 4 cylinder engine.

We pride ourselves on providing excellent customer service. Please don't hesitate to give us a call.

This Ford won't be on the lot long!

Comprehensive style mixed with all around versatility makes it an outstanding pickup truck! Turbocharger technology provides forced air induction, enhancing performance while preserving fuel economy. Ford prioritized fit and finish as evidenced by: a rear step bumper, power windows, and air conditioning. It features four-wheel drive capabilities, a durable automatic transmission, and a 2.3 liter 4 cylinder engine.

We know that you have high expectations, and we enjoy the challenge of meeting and exceeding them! Stop by our dealership or give us a call for more information.
