Regarding development of Tax Lot #
~~lot 15 of~~ 161612000050 —
Lot 15 of Emerald Hills - Pineville, OR.

Gary and I live on our property close to this above property on the same bed of basalt rock. We wish to protest the sale/further development of said property by Greenbar Excavation.

Since we live on that same bed of basalt rock that their gravel pit, we have very serious concerns about the potential development and this pit among our concerns are possible effects on the stability (now or later) of our well.

As it is, they are required to give us a written notice 5 days before blasting - none has been received.

Thank you for your consideration.
