Planning Dept.

Hi Brent

No, I have no problem with their documentation whatsoever. Several years ago, I worked closely with the solar folks to help them produce a weed plan that would be acceptable to us. Since then, and a few solar farms later, the weed plans submitted all look similar. I believe that the first plan served as a cookie cutter for future documents. The plagiarism does not bother me in the least and the documents are more than ample.

Thanks for the heads-up
Kev

Hello Kev,

I'm currently reviewing a solar farm proposal for the Powell East Solar Project. I've attached their Weed Control Plan that they've submitted for review with their application. Do you have any comments or concerns?

Thank you for your time.

Brent
