Subject: Objection to Green Bar Excavation Application (Please post as an exhibit)

Follow Up Flag: Follow up
Flag Status: Flagged

We oppose this application for many reasons, but the fact there isn't the required "significant aggregate", and the applicant doesn't even have a permit to blast on their neighboring site, should be reason enough to deny it without putting the rest of us in this very stressful situation.

These sites were purchased and paid for knowing their limitations. How sad that, after the previous owner passes away, Green Bar would even submit such an application.

Thank you in advance for denying this application.
