To: Will VanVactor <Will.VanVactor@crookcountyor.gov>

We have no history of a signed complaint or active compliance case on the quarry since the approval to reopen in 2017.

In 2019 Mr. Bartels started blasting and several of the neighbors called in and claimed that they did not receive their notice prior to blasting. When questioned, Mr. Bartels explained that the notices were mailed out in advance.

At that time, we discovered that the mail from Prineville is processed in Portland and then sent out... there is a longer than normal delay in the delivery.

From that date forward, Mr. Bartels had the planning department print all the labels for his mailing of the blasting notices and he agreed to send the notices out early given the delivery delay.

Since 2020, we have not received any phone calls or had any issues related to the blasting notices.
