Re: Moffatt Road Solar Farm LLC Application File No. 217-24-000293-PLNG

Dear Chair Warren and Crook County Planning Commission,

We are writing this letter in support of the proposed Moffatt Road Solar farm project off of SW George Millican Road. Please approve the project with the proposed conditions.

Also to confirm, as the longstanding landowner of the adjoining several thousand acres of relatively low-value agricultural ground, which are otherwise surrounding by BLM, that we do not believe this project would have any significant adverse on surrounding agricultural practices, which are already very limited in nature.

We believe the project will bring Crook County tax revenue every year and help support the local economy using agriculturally low-value land to produce something beneficial to our community.

We appreciate NewSun Energy's commitment to using local contractors and labor, as well as facilitating ongoing agricultural activities, and its ongoing efforts to invest in our community in Crook County.

Signed,

Ron and Susan Raasch
