CROOK COUNTY
JUL 01 2022
PLANNING DEPT

Dear Brent and Hannah , Mike Dunn and I were talking about Madras , Culver , Metolius and all of the North Agency Plains Gateway area being on Opal Springs water in the Crooked River under the Deschutes Valley Water district management , and how Prineville could add another tank by the one up the hill by the Airport and pipeline around the hill to Crossing Trails ???

We all are in agreement that the population density of the proposed Modification is still to much when considering all resources . Plus having lower to middle income families having to stand the extra expense of travel and children's needs is something to ponder too .

Thanks and have a great day .
