July 5, 2022

To: Crook County Planning Department

Regarding: The proposed Crossing Trails Residential Sub Division.

The development of a residential subdivision in the EFU zone in Powell Butte is possibly the worst idea possible for the community and citizens of Central Oregon. With over 66% of the Crook County voters opposed to more "Destination Resorts" the citizens are united in stopping more sprawling development. Of course, this is a commuter subdivision hiding as a "Destination Resort"

The people know that the main reason for Crossing Trails Subdivision is the enrichment of out of state/foreign money interest. Greed is the root of this evil and it will permanently degrade Powell Butte.

My wife and I had a farm in Eagle, Idaho. It was a beautiful agricultural area that looked much like Powell Butte EFU land until it was completely built over for the benefit of greedy developers and their friends in government..

Sadly it seems that the Crook County Planning Dept. views Powell Butte as a sprawling subdivision with property taxes flowing into the retirement plans of Government employees.

The citizens /taxpayers of Crook County know that the Planning Dept. / Planning Commission are responsible for this situation. Crook County Planning Commission works to support developers greed and never considers the cost to the community or the taxpayers that will PAY for the infrastructure needed for the sprawling residential housing.

Crook County Taxpayers hold the Planning Dept. and Planning Commission PERSONALLY responsible for this very impossible situation.

Joel Glenn
Powell Butte Resident
