Subject: COID Crossing Trails Resort Water Management Plan Additional Comments

CROOK COUNTY
JUL 12 2022
PLANNING DEPT

Hello,

Please find COID's comments requesting a Water Management Plan in reference to the Crossing Trails Resort.

"Central Oregon Irrigation District requests a Water Management Plan be produced prior to further progression of the development of the Crossing Trails Resort. COID does not have adequate information regarding proposed use of water rights, disposal and treatment of wastewater and effluent, and impact to COID facilities, ditches, and easements currently. This request is due to the high level of impact that will occur to COID facilities and water rights, as well as potential impacts to other COID water users due to the proposed development.

COID also requests to be included in future decision and plan approval by Crook County relating to the Crossing Trails Resort development. This request is to avoid potential conflict with development in the later stages of the project. Currently, COID has many concerns with the proposed development plan."

Please inform COID of your decision regarding COID's request to be included in future decision and planning approval and inform the developer of COID's request for a completed Water Management Plan. Thank you.

Central Oregon Irrigation District
