Howdy Crook County Planning , Please post in exhibits all Requests and Responses between County , COID and Cross Trails Resort , so everyone that are Patrons of COID irrigation District and the Powell Butte Community Residence can know when the County notifies the Developer Atwell / Crossing Trails Resort of COID's Requests , and when they respond to the Waste Water/ Effluent Management Plan that COID has requested Ahead of the 27th – 28th Public Hearing BEFORE any MORE Progress is made on Approving This Modification Application .

These Requests by COID should be approved by Oregon State DEQ before any Modification of 2009 Application is approved based off COID requests for a " Completed Waste Management Plan " which will have to include how Discharging Effluents over COID water righted Acreage is not conflicting with water Righted acreage , and the " Overcharging of the Same Acreage with additional Waste Water on will not have an effect on down sloped Neighboring COID Patrons .

COID's Request for a Waste Water Management Plan is also reverberated in the 2009 Conditional Approved Application , Number 29 , page 53 , Applicate shall provide to Crook County Planning a DEQ Approved WPCF Permit from DEQ for Waste Water Treatment Facilities .

Also there should be Exhibit posts between Crossing Trails and Oregon State Water Master on any issues regarding Ground water aquifer Testing that the State Water Master has said to me and Mike Dunn should be performed because of the On going drought since the 2009 Application Approval .

https://co.crook.or.us/sites/default/files/fileattachments/planning_commission/page/13956/crossing_trails_-_exhibit_63_-_coid.pdf

Thank you for your time and for creating a very professional platform for this debate and please add this to the exhibits .

And we appreciate all our County Officials efforts in handling the Communities affairs !
